SUMMARY

As a full-stack web developer with a passion for creating user-centric digital experiences, I specialize in building websites and applications that are not only functional but also visually stunning and easy to use. My expertise in JavaScript, React, and Node.js, combined with a background in UX design, allows me to craft seamless, engaging user experiences. I'm committed to continuously improving my skills and thrive on tackling new challenges. My goal is to deliver top-notch digital solutions that meet the needs of users and exceed expectations."
